

Overcome Accessibility Barriers with VESTNER

Commercial Platform Lifts and Elevators

Vestner's range of platform lifts and elevators are an ideal lift choice for providing an access solution for commercial buildings, educational facilities and retail premises.

Whether it is to meet the access needs of a staff member or student, or to provide public access, particularly where stairs are expected to carry most of the traffic, a platform lift or elevator may be the right choice.

- Suitable for indoor and outdoor settings.
- Limited site preparation - easy installation.
- Range of models suitable for rises up to 4m.
- Bring your building up to code.
- New Zealand designed and manufactured by disability access specialists.

Vestner's series of lifts and elevators are a safe and cost effective solution in overcoming accessibility barriers in the commercial environment.

Safety and Compliance

Designed to overcome accessibility barriers with client's needs and **safety** foremost, the lift series meet **compliance** requirements and New Zealand disability codes and recommendations.

Lifts have been certified for Access Equipment Safety and Structural Engineering Compliance by independent certifiers and are compliant with the relevant Building Codes.

Lifts have been issued with a Certificate of Plant Design Registration by WorkCover NSW Government.

Vestner is New Zealand's leading designer, manufacturer, installer and exporter of platform lifts and elevators.

ASCENSA

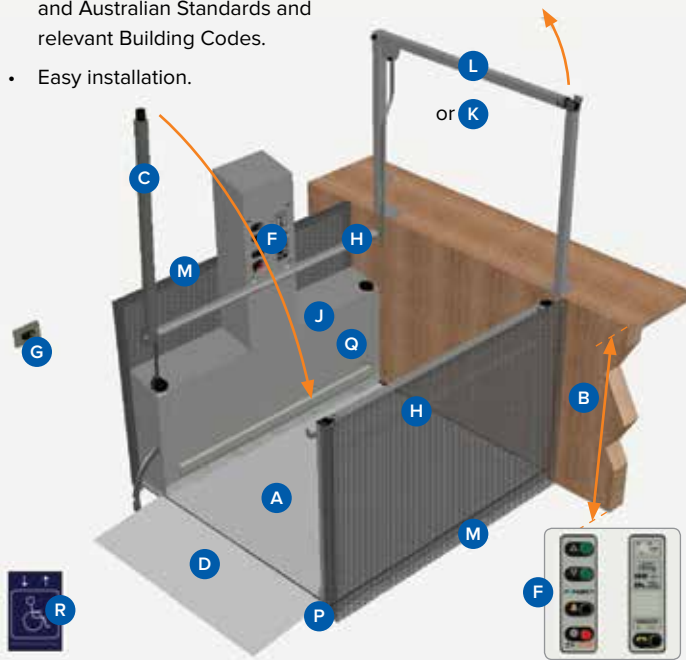

Open Platform Lift

The most popular open platform lift is suitable for a range of settings, with a maximum rise of up to 1 metre. The perfect solution for accessing mezzanine floors, auditorium and school stages.

Vertical rise - max 1 metre.

- New Zealand designed and manufactured by access specialists.
- Meets requirements of the New Zealand and Australian Standards and relevant Building Codes.
- Easy installation.

- | | |
|---------------------------|-----------------------------|
| A. User platform | J. Emergency lowering valve |
| B. Maximum vertical rise | K. Landing gate |
| C. Car barrier arm | L. Landing barrier arm |
| D. Retractable ramp | M. Lift shaft walls |
| F. Car controls | P. Under car barrier blind |
| G. Landing call buttons | Q. Manufacturing plate |
| H. Car support/hand rails | R. Signage & documentation |

EXTOLLO

Open Platform Lift

Ideal for providing access to different floors or levels with a rise of up to 1.5 metres, the EXTOLLO open platform lift provides an unobtrusive access solution for clients and customers. Preassembled and simply bolted into place - suitable for all environments.

Vertical rise - max 1.5 metres.

- New Zealand designed and manufactured by access specialists.
- Meets requirements of the New Zealand and Australian Standards and relevant Building Codes.
- Easy installation.

MOBILIFT CX

Portable Platform Lift

When a fixed lift is not deemed suitable, or the need is temporary, the Mobilift CX portable lift may be the best option for those access needs. Easy to operate and move between locations and available for sale or hire. No power source is required. Canadian designed and manufactured.

Vertical rise - max 1.5 metres.

- Compact design for both indoor and outdoor use.
- Manual operation, no power source required.
- Commercial or residential applications.
- Safe and easy to operate.
- For sale or hire.
- New Zealand's sole distributor.

For problem areas with limited space, the passenger can be placed on the lift before being moved into position. Even with a load, manoeuvring is almost effortless and the wheels automatically retract when the platform is raised, maximising the lift's stability.

The Mobilift CX can also be transported easily between venues by a single operator, even outdoors!
